**Availability to join** : Immediately

## Summary

Mobile App Developer with **2 years** of experience building cross-platform applications using **Flutter** and **React Native**. Skilled in developing responsive, high-performance mobile apps with clean architecture and maintainable code practices. Experienced in REST API integration, state management, debugging, and app deployment to **Play Store** and **App Store**. Strong understanding of UI/UX principles, version control (Git), and agile workflows. A proactive team player with solid problem-solving skills and a passion for continuous learning.

## Experience

### Mobile Application Developer (React Native + Flutter)

Mar 2024 – Present

*Escorts Kubota Limited - Faridabad, India (Onsite)*

- ❖ Designed, developed, deployed, and maintained scalable mobile and web applications using **Flutter and React Native**, with seamless integration of backend services and **RESTful APIs**.
- ❖ Led end-to-end development of chatbot solutions, stock auditing applications, and enterprise application suites, ensuring performance, reliability, and maintainability.
- ❖ Delivered technical presentations, project reports, and live product demonstrations to stakeholders and senior leadership.
- ❖ Collaborated closely with backend engineering teams to optimize API design, improve application performance, and enhance overall system efficiency.
- ❖ Recognized with an **Excellence Award** for driving digital transformation initiatives and automating multiple manual internal processes.

## Projects

### Stock Audit | Inventory Management Solution

- ❖ Developed a **Flutter mobile app** for Android scan guns and a **Flutter Web admin panel** integrated with **Oracle DB** for real-time stock auditing.
- ❖ Enabled users to count products and generate audit slips, while admins tracked scans and printed slips efficiently.
- ❖ **Automated a 2-month manual process**, completing audits in **3-4 days**, improving accuracy and operational efficiency.

### Serv Genie | AI Chat Bot

 [Link](#)

- ❖ Developed a **cross-platform Flutter mobile app** (Play Store & App Store) providing AI-powered responses to technical queries on **Escort Kubota Limited** parts, engines, and product features.
- ❖ Integrated **Azure Cognitive Search** and trained a **custom LLM** using machine manuals to deliver accurate, real-time answers.
- ❖ Implemented **voice input** and **15+ language support**, enabling engineers and farmers to diagnose machine issues or inquire about products seamlessly.
- ❖ Used by **500+ users**, automating tasks previously handled by call centers and improving response speed and efficiency.

### Ekonnnect | Application Suite

- ❖ Developed a **React Native app** consolidating all application links for **EKL employees** in a single hub.
- ❖ Implemented **lazy loading and state management** to optimize performance and user experience.
- ❖ Collaborated with **third-party vendors** to integrate APIs, ensuring seamless access to enterprise applications.

## Skills

**Programming Languages:** Dart, JavaScript, TypeScript, Java, Kotlin, Swift, Objective-C, C++, Python

**Frameworks & SDKs:** Flutter, React, React Native, Node.js, Express.js, GetX, Riverpod, Bloc, Redux, React Animations

**Tools & Utilities:** Git, GitHub, Postman, Android Studio, Xcode, Figma, UI/UX

**Database :** MySQL, MongoDB, Postgress, Redis, Oracle

## Education

**B.Tech Computer Science Engineering ( CGPA: 8.1 )**

**June 2020 – June 2024**

*Mody University, Rajasthan, India*
