Summary

Full Stack MERN Developer and Mobile App Developer with **4+ years** of experience building cross-platform applications using **Flutter** and **React Native**, and developing scalable web applications with **React** and **Node.js**. Skilled in REST API integration, state management, debugging, and deployment, with hands-on experience in **MongoDB**, **SQL**, and **MySQL** databases. Proficient in modern **MERN** stack development. Strong understanding of UI/UX, Git, and agile workflows, with a proactive approach to problem-solving.

Experience

Full Stack Developer

Jun 2026 – Present

ZeroGravity (NyxWolves) - Abu Dhabi, UAE ([Onsite](#))

- ❖ Responsible for development of full-stack applications, including design, implementation, deployment, and maintenance..
- ❖ Leveraged Agentic AI to develop a highly confidential government digital transformation project focused on intelligent idea propagation, automating idea generation, evaluation, refinement, and workflow orchestration while maintaining enterprise-grade security and scalability.

Full Stack Application Developer (MERN + React Native/ Flutter)

Mar 2024 – April 2026

Escorts Kubota Limited - Faridabad, India ([Onsite](#))

- ❖ Designed, developed, deployed, and maintained scalable mobile and web applications using **Flutter** and **React Native**, with seamless integration of **Node.js** services and **RESTful APIs**.
- ❖ Recognized with an **Excellence Award** for driving digital transformation initiatives and automating multiple manual internal processes.

Mobile Application Developer (Flutter + Node + MySQL)

April 2022 – Mar 2024

Society for Bright Future - Delhi, India ([Remote](#))

- ❖ Responsible for developing, deploying, and managing the SBF India mobile application and web admin panel, enabling user registration and real-time updates for volunteer applications within SBF.

Projects

Stock Audit | Inventory Management Solution CRM

- ❖ Developed a **React** Web Admin Panel, **Flutter** Mobile App and **Node.js** backend for Android scan guns and a CRM using MERN architecture integrated with MongoDB for real-time auditing capabilities.
- ❖ Automated a 2-month manual process, completing audits in 3–4 days, improving accuracy and operational efficiency.

Serv Genie | AI Chat Bot

[Link](#)

- ❖ Developed a cross-platform **Flutter** app delivering AI-powered responses for parts, engines, and product features using MERN-based services and headless content integrations.
- ❖ Integrated Azure Cognitive Search and trained a custom LLM with machine manuals to provide accurate, real-time answers and scalable content orchestration.

SBF India | Volunteer Management

[Link](#)

- ❖ Developed mobile app and Web admin panel for SBF NGO to manage volunteers; deployed on Play Store.
- ❖ Added Push Notification and Authentication via Google using Firebase Auth
